

YUAN ZE
UNIVERSITY

**Overseas Chinese Students
Direct Admission Application
(2nd Round)
【2025 Fall Semester】**

元智大學

Application period: April 15, 2025, 9am— June 15, 2025, 5pm. (GMT+8).
Register online at: <https://yzu-apply.yzu.edu.tw/>

Global Affairs Office
Yuan Ze University
Email: dorrie@saturn.yzu.edu.tw
Tel: +886-3-4638800 ext.3287

Note: The contents of this brochure were translated from Chinese. In the event of any discrepancies between the two versions, the Chinese version will take precedence.

YZU Application Timeline for Overseas Chinese Students Direct Admission Application (2nd Round)

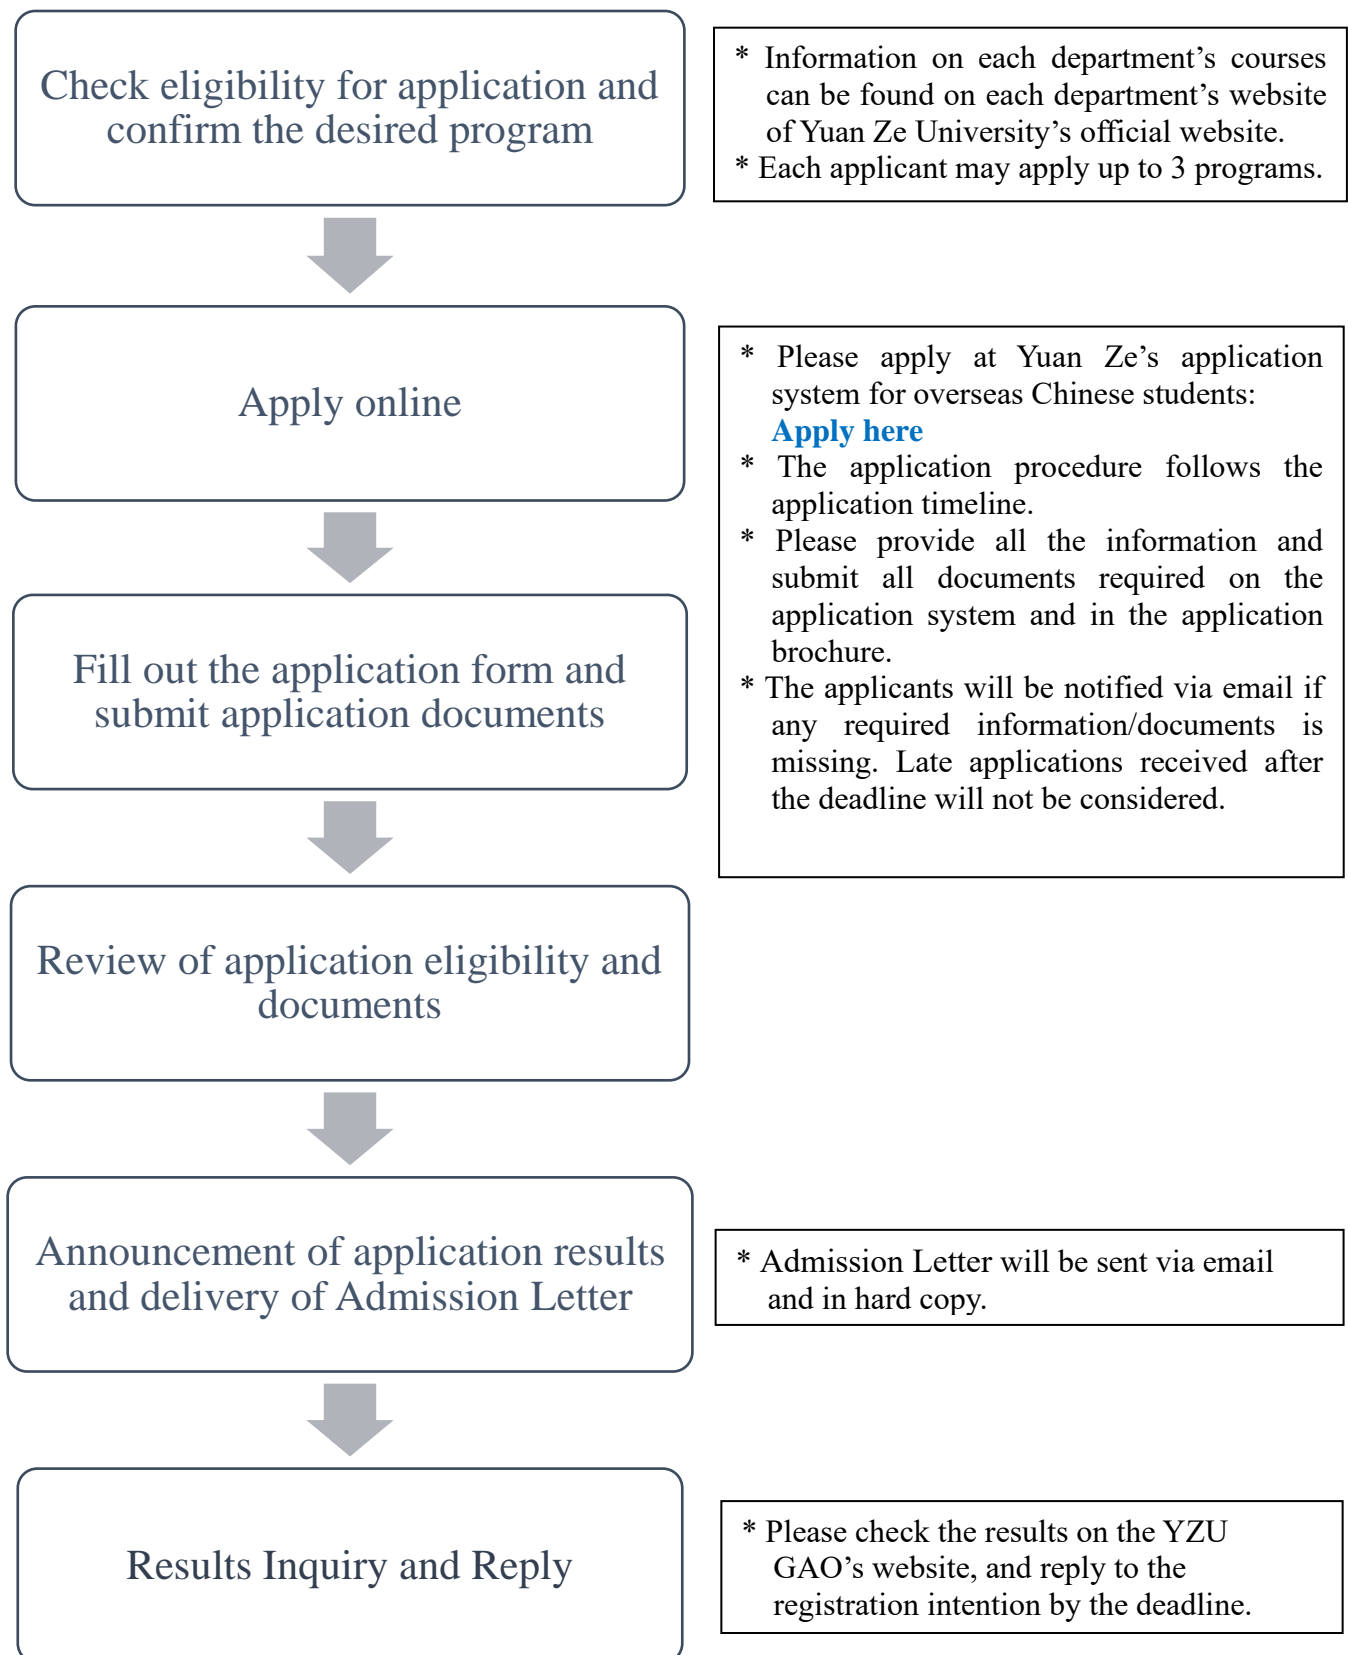

【The following timetable is based on Taiwan Standard Time (GMT+8).】

Activity	Date (2 nd Round Application)
Brochure Announcement	March 21, 2025
	Download it from the Global Affairs Office's website for overseas Chinese students: https://gao.yzu.edu.tw/index.php/en/admissions-2/oc-student
Online Application	April 15, 2025 – June 15, 2025
	Apply online at: → Apply here
Review of Applications	June 16, 2025 – July 20, 2025
	Evaluation application documents.
Announcement of Application Results	August 5, 2025
	Application results will be announced at: https://gao.yzu.edu.tw/index.php/en/admissions-2/oc-student
Results Inquiry and Reply	August 5, 2025 – August 15, 2025
	Please check the results on the registration website, and reply to the registration intention by the deadline.
Mailing of Admission Letter	Late August in 2025
	Admission Letter will be sent via email and in hard copy.
Registration for New Students	Early September in 2025
	Registration date is based on YZU calendar, which can be found in university's website: https://www.yzu.edu.tw/index.php/en-us/

* Any information and forms from YZU will be sent via email. Please make sure you provide the correct email address and your mailbox can function smoothly. Students are responsible for any incidents caused by the systematic errors of their own mailboxes (such as letters being moved to the junk mail folder, unsuccessful delivery due to a full mailbox, Internet disconnection, and computer breakdown). If students do not receive the necessary information within the scheduled time period, they should contact the Global Affairs Office of YZU via email.

* The overseas Chinese/Hong Kong/Macao students placed by the University Entrance Committee For Overseas Chinese Students in this academic year will not be admitted in the second-round direct admission of YZU.

Yuan Ze University Application Brochure for Overseas Chinese Students

Direct Admission Application (1st Round)

1. Application Requirements

The application requirements for overseas Chinese/Hong Kong/Macao students conform to the “**Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan**” and “**Regulations for Hong Kong and Macao Residents Studying in Taiwan**” issued by the Ministry of Education.

- I. Definitions of overseas Chinese students, Hong Kong/Macao students, and Chinese students with foreign nationality in Hong Kong/Macao:
 - i. Overseas Chinese students: Chinese students born in an overseas country, and have taken up continuous residence to this day, or recent continuous residence for over **six** consecutive years, in an overseas country and in possession of a long-term or permanent residence permit in the country. The term “overseas” here refers to countries or regions other than Mainland China, Hong Kong, and Macao.
 - ii. Hong Kong/Macao students: Residents of Hong Kong or Macao in possession of a permanent residence permit in Hong Kong or Macao who have taken up continuous residence outside Taiwan for over six consecutive years and meet the requirements listed in Article 4 of the “**Laws and Regulations Regarding Hong Kong & Macao Affairs**”.
 - iii. Chinese students with foreign nationality in Hong Kong/Macao: Chinese students with foreign nationality and a permanent residence permit in Hong Kong or Macao, who have never had household registration in Taiwan and have taken up continuous residence in Hong Kong, Macao or overseas for over six consecutive years. The students’ study and counseling affairs must conform to the “Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan” before the amendment and implementation of relevant legal regulations.
- * Note 1. The overseas Chinese students and Hong Kong/Macao students eligible for admission are those who come to Taiwan from overseas in the academic year (not including those who attended high school in Taiwan, studied one year at a Taiwanese university but did not graduate, graduated from an unincorporated Chinese secondary school in Myanmar or Northern Thailand, or graduated from National Taiwan Normal University Division of Preparatory Programs for Overseas Chinese Students).
- * Note 2. The term “continuous residence” mentioned above entails the condition that the student did not reside in Taiwan for over 120 days in each calendar year (from January 1 to December 31), which would then be considered as interrupted residence. The period taken into account is six years before the aforementioned application deadline date. However, the students whose continuous residence meets the aforementioned requirement after August 31, 2025 are eligible to apply.
- * Note 3. For information on continuous residence and exclusion regulations, the overseas Chinese students and Hong Kong/Macao students may refer to Articles 3 & 4 of the “Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan” and Articles 3 & 4 of the “Regulations for Hong Kong and Macao Residents Studying in Taiwan”, respectively. The students must also submit the required documents concerning their residence for review during application.
- * Note 4. Part of the applicants’ personal data will be transferred by the university to the University Entrance Committee For Overseas Chinese Students, the Ministry of Education, the National Immigration Agency of the Ministry of the Interior, and the Overseas Community Affairs Council for the review of travel records as well as identity verification performed by the Ministry of Education, the University Entrance Committee For Overseas Chinese Students, and the Overseas Community Affairs Council.
- * Note 5. The overseas Chinese students and the Hong Kong/Macao students are not allowed to change their identity on their own during their study in Taiwan unless otherwise specified by law. If the student owns the dual identity of a foreign student and overseas Chinese student, he or she must select one of the identities to be admitted to the university and cannot change the selected identity once his or her application is submitted.

II. Education Requirements:

- i. Applicants for the undergraduate program must hold a degree equivalent to or higher than that from a high school in Taiwan, while applicants for the master's program must hold an undergraduate degree.
- ii. Applicants who graduated from a university/institution with academic credentials need to be recognized by the Ministry of Education in Taiwan as listed on the Department of International and cross-Strait Education website.
- iii. All diplomas and degrees from high schools and universities must be verified by an overseas mission of Taiwan or a recommendation unit designated by the Overseas Community Affairs Council.
- iv. Applicants who receive a diploma from a foreign country, Hong Kong, Macao, or Mainland China must meet the requirements listed in Article 9 of the "Standards for Recognition of Equivalent Educational Levels for University Admission" issued by the Ministry of Education. Applicants who graduate at a level equivalent to Grade 11 in Taiwan overseas or in Hong Kong/Macao are required to earn another 12 additional credits at Yuan Ze University to graduate.

III. Students under any of the following circumstances cannot apply for admission in Taiwan. Applicants who violate such rules will be disqualified for admission. Students who violate such rules but are already admitted to the university will be expelled.

- i. The student studied in/graduated from a high school in Taiwan.
- ii. The student owns a forged/altered/false certificate/passport.
- iii. The student had applied for an already granted annulment of R.O.C. nationality and has yet to acquire nationality from another country.
- iv. The student is considered ineligible for admission by the Overseas Affairs authority or the Ministry of Education after being admitted to the university.
- v. The student enrolled in, took a temporary leave from, was involuntarily suspended (e.g. expelled) from, or applied to retain enrollment eligibility in a university in Taiwan (including National Taiwan Normal University Division of Preparatory Programs for Overseas Chinese Students), and therefore is disqualified for re-admission.

IV. The verification process of identity and educational qualifications conforms to the regulations issued by the Ministry of Education, the Overseas Community Affairs Council, and Yuan Ze University. The applicants are required to complete Appendix 1 "Overseas Chinese student registration qualification affidavit" and Appendix 2 "Hong Kong / Macao student registration qualification affidavit" to facilitate YZU's review of the applicants' identity and educational qualifications.

2. Programs and Admission

Academic Programs for Bachelor	
College	Academic Programs
College of Engineering	Department of Mechanical Engineering
	Department of Chemical Engineering and Materials Science
	Department of Industrial Engineering and Management
	International Bachelor Program in Engineering
College of Electrical and Communication Engineering	Department of Electrical Engineering (Program A, B, C)
	International Bachelor Program in Electrical and Communication Engineering
College of Management	Bachelor of Business Administration Program (Major in Digital Marketing and Human Resources)
	Bachelor of Business Administration Program (Major in Finance)
	Bachelor of Business Administration Program (Major in Business Administration & International Business)
	Bachelor of Business Administration Program (Major in Accounting)
	English Bachelor of Business Administration Program
College of Informatics	Department of Computer Science and Engineering
	Department of Information Management
	Department of Information Communication (Intelligent Technology Group & Digital Media Design Group)
	International Bachelor Program in Informatics
College of Humanities and Social Sciences	Department of Foreign Languages and Applied Linguistics
	Department of Chinese Linguistics and Literature
	Department of Social and Policy Sciences
	Department of Art and Design
	International Bachelor in Strategic Communication
College of Medicine and Nursing	School of Nursing

Academic Programs for Master	
College	Academic Programs
College of Engineering	Department of Mechanical Engineering
	Department of Chemical Engineering and Materials Science
	Department of Industrial Engineering and Management
College of Electrical and Communication Engineering	Department of Electrical Engineering (Program A, B, C)
	Master of Electrical Engineering with Artificial Intelligence
College of Management	Master of Business Administration Program
	Master of Science in Finance and Accounting
College of Informatics	Department of Computer Science and Engineering
	Department of Information Management
	Department of Information Communication
	Graduate Program in Biomedical Informatics
College of Humanities and Social Sciences	Department of Foreign Languages and Applied Linguistics
	Department of Chinese Linguistics and Literature
	Department of Social and Policy Sciences
	Master Program in Art and Design Management, Department of Art and Design
College of Medicine and Nursing	Graduate Institute of Medicine
	Graduate School of Biotechnology and Bioengineering

* For more Information: <https://www.yzu-gao.com/>

4. When and How to Apply

- I. Application period: April 15, 2025 — June 15, 2025.
- II. Any online or hard copies applications submitted after the application deadline will not be considered.
- III. No application fee is required. Each applicant can apply to up to 3 programs in the same application form.
- IV. Applicants must provide the information and submit the documents required in the online application system and application brochure.
- V. Applicants will be notified via email if they submit incomplete/wrong information or documents. Late submission after the deadline will not be considered.

5. Required Information and Documents

Applicants must upload the following documents to the online application system:

- I. Certificate of Identity:
 - i. For overseas Chinese students: Applicants must hold a permanent or long-term residence permit in the country of residence (e.g. identity card/passport issued by the country of residence or a R.O.C. passport with an Overseas Compatriot Identity Endorsement).
 - ii. For Hong Kong/Macao students: Applicants must hold a Hong Kong/Macao passport, a permanent residence permit (e.g. identity card issued by the country of residence), and copies of the original certification of continuous residence overseas (e.g. travel records certification; however, applicants who do not hold such a certification do not have to submit such a document). Applicants born in Mainland China must submit a copy of their “Mainland Travel Permit for Hong Kong and Macao Residents” (i.e. Home Return Permit).
 - iii. For Chinese students with foreign nationality in Hong Kong/Macao: Applicants must hold a Hong Kong/Macao passport, a permanent residence permit, and a foreign country passport. Applicants born in Mainland China must submit a copy of their “Mainland Travel Permit for Hong Kong and Macao Residents” (i.e. Home Return Permit).
- II. Certificate of Education Such as a Diploma/Certificate of Enrollment:
 - i. The diploma, certificate of enrollment, and other academic documents submitted at the time of application (documents in languages other than Chinese or English must be accompanied by a Chinese or English translation) must be verified by an overseas mission of the R.O.C. (Taiwan) or by a sponsoring organization designated by the Overseas Community Affairs Council (OCAC).
 - ii. Graduating students must submit a certificate of current enrollment for the current semester. However, they must obtain their official diploma before enrollment. The diploma must be translated into Chinese (English documents are exempt from translation) and verified by an overseas mission of the R.O.C. (Taiwan) or by a sponsoring organization designated by the OCAC for review by the university. Failure to comply will result in disqualification from applying, and those already admitted will have their admission and enrollment revoked.
 - iii. Graduates must submit a diploma that has been verified by an overseas mission of the R.O.C. (Taiwan) or a sponsoring organization designated by the OCAC. Applicants for undergraduate programs must submit their high school diploma; applicants for master's programs must submit their university diploma.
 - iv. Academic credentials from foreign schools with campuses or branches located in Mainland China must be verified by a notary office in Mainland China and authenticated by an organization established or designated by the Executive Yuan, or by an authorized private entity.

III. Academic Transcript:

- i. The academic transcript submitted at the time of application (documents in languages other than Chinese or English must be accompanied by a Chinese or English translation) must be verified by an overseas mission of the R.O.C. (Taiwan) or by a sponsoring organization designated by the Overseas Community Affairs Council (OCAC). However, academic credentials from foreign schools with campuses or branches located in Mainland China must be notarized by a notary office in Mainland China and authenticated by an organization established or designated by the Executive Yuan, or by an authorized private entity.
- ii. Graduates of the current year must submit copies of the transcripts and ranking certificates of Grade 10 & 11.
- iii. Graduates of Grade 12 must submit copies of the transcripts and ranking certificates from Grade 10 to 12.
- iv. Graduates of Grade 11 must submit copies of the transcripts and ranking certificates of Grade 10 & 11.
- v. Applicants to the master's programs must submit a copy of the transcript of their undergraduate studies.

IV. Language Proficiency Certification:

- i. Applicants to key industry programs must provide relevant language proficiency certificates:
- ii. For undergraduate programs in key industries: Applicants must submit an English language proficiency test certificate at CEFR B1 level or above. Applicants who hold citizenship from an English-speaking country (please upload passport) or who have obtained their previous degree from an English-speaking country (please upload degree certificate) are exempt from submitting English language proficiency certificates.
- iii. For master's programs in key industries:
 - Applicants to Chinese-taught programs must provide a Test of Chinese as a Foreign Language (TOCFL) certificate demonstrating proficiency at Level 2 or above.
 - Applicants to English-taught programs must submit an English language proficiency test certificate at CEFR B1 level or above. Applicants who hold citizenship from an English-speaking country (please upload passport) or who have obtained their previous degree from an English-speaking country (please upload degree certificate) are exempt from submitting English language proficiency certificates.

iv. List of Key Industry Programs:

College	Bachelors	Master
College of Engineering	International Bachelor Program in Engineering	--
	--	Department of Mechanical Engineering
	--	Department of Chemical Engineering and Materials Science
	--	Department of Industrial Engineering and Management
College of Informatics	International Bachelor Program in Informatics	--
	--	Department of Computer Science and Engineering
	--	Department of Information Management
	--	Department of Information Communication
	--	Graduate Program in Biomedical Informatics
College of Electrical and Communication Engineering	International Bachelor Program in Electrical and Communication Engineering	--
	--	Department of Electrical Engineering
College of Medicine and Nursing	--	Graduate Institute of Medicine
	--	Graduate School of Biotechnology and Bioengineering

- V. Photo: Each applicant must submit a 2x2-inch headshot taken within the last 6 months and show a full front view of the face without wearing a hat.
- VI. Affidavit of identity and education: Applicants are required to complete, scan, and then upload the affidavit in Appendix 1 in PDF format.
- VII. Confirmation of admission eligibility of Hong Kong/Macao residents: The Hong Kong/Macao applicants are required to complete, scan, and then upload the letter of confirmation in Appendix 2 in PDF format.
- VIII. Personal Data Collection Agreement: Applicants are required to complete, scan, and then upload the letter of confirmation in Appendix 3 in PDF format.
- IX. Autobiography: Applicants who submit different versions of personal statements to apply to different programs must specify the name of each program and combine the personal statements into one file for upload.
- X. Motivation (required for application to master's programs): Including the study plan.
- XI. Recommendation letter (required for application to master's programs)
- XII. Other Supporting Documents: Proof of achievement of specialized works (or special performances), other relevant licenses, certifications. Please attach English certificates if you are applying for English Program.
 - * Note 1. If the aforementioned documents, such as diploma, certificate of enrollment, and academic transcript, are languages other than Chinese or English, the applicants must submit a Chinese or English version of the documents. The transcript must be an official document from the school and stamped by the school's Academic Affairs Office.
 - * Note 2. Applicants must submit an electronic file of the diploma, certificate of enrollment, and transcript. Once admitted to and registered at the university in Taiwan, the applicants must submit the original copy of these documents (and have them translated into Chinese if they are in languages other than Chinese or English), which must be verified by the overseas mission of Taiwan or a recommendation unit designated by the Overseas Community Affairs Council, for the university's review. Applicants who do not provide the aforementioned documents will be disqualified for admission; if they are already admitted to the university, their admission will be revoked.
 - * Note 3. Late applications after the deadline or applications that provide incomplete information will not be considered. Applicants cannot apply to submit late documents unless they are informed by YZU to do so.

6. Admission Principles

- I. Applications from overseas Chinese students and Hong Kong/Macao students are administered by the Global Affairs Office, which sends the applications verified by the program committees to the Admissions Committee. The applicants must be overseas Chinese students whose identity is verified by the Overseas Affairs authority or Hong Kong/Macao students or Chinese students with foreign nationality in Hong Kong/Macao whose identity is verified by the Ministry of Education or University Entrance Committee for Overseas Chinese Students.
- II. The overseas Chinese/Hong Kong/Macao students individually admitted in the first round to the university will not be placed by the University Entrance Committee for Overseas Chinese Students.
- III. The overseas Chinese/Hong Kong/Macao students placed by the University Entrance Committee for Overseas Chinese Students in this academic year will not be admitted in the second-round direct admission of the university.

7. Announcement of Application Results

- I. Date of announcement: August 5, 2025
- II. Students' identity will be verified by the Ministry of Education or the Overseas Community Affairs Council.

8. Matters for Attention

- I. The admission regulations conform to the academic policies of YZU and the **“Regulations for direct Admission of Overseas Chinese Students and Hong Kong/Macao Students Studying in Taiwan to Yuan Ze University”**.
- II. The personal data submitted for application will only be used for the purpose of admission and related statistical analysis.
- III. The submitted application form and documents will not be returned to the applicants whether they are admitted or not. The applicants should keep extra copies of the documents if they need these documents for other purposes.
- IV. To ensure that the identities of the overseas Chinese students, Hong Kong/Macao students, and Chinese students with foreign nationality in Hong Kong/Macao conform to the requirements in the **“Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan”** or **“Regulations for Hong Kong and Macao Residents Studying in Taiwan”**, part of the applicants' personal data will be transferred by YZU to the University Entrance Committee For Overseas Chinese Students, the Ministry of Education, the National Immigration Agency of the Ministry of the Interior, and the Overseas Community Affairs Council for the review of travel records as well as identity verification performed by the Ministry of Education, the University Entrance Committee For Overseas Chinese Students, and the Overseas Community Affairs Council.
- V. If YZU discovers that an admitted student provides an invalid identity certificate or any documents that are forged, stolen, or altered, the student will be expelled from YZU and will not receive any academic certificate. If such a circumstance is discovered in a student already graduating from YZU, the student's diploma and academic degree will be revoked, and the student will be legally responsible for his or her behavior.
- VI. Admission to the university does not guarantee a visa, which must be verified and issued by Republic of China's Ministry of Foreign Affairs overseas embassies.

9. Appeal

- I. Applicants who have any doubts or complaints regarding the admission should file the appeal within 15 days after the announcement of admission results. Overdue appeal will not be accepted. The student recruitment committee should formally reply within one month upon receiving the appeal; if necessary, it should form a special team to fairly investigate and inform the applicant for the administrative remedy procedures.
- II. The procedure to handle the appeal will follow the Regulation of Yuan Ze University Candidates' Appeal Handling Measures.

10. Regulations for Studying in Taiwan

- I. The overseas Chinese students, Hong Kong/Macao students, and Chinese students with foreign nationality in Hong Kong/Macao admitted to YZU through the admission procedure are prohibited from transferring/advancing their studies on their own to after-school programs, continuing education institutions (colleges), National Open University, National Open Continuing College, continuing undergraduate programs/in-service master's programs of recurrent education in YZU, or classes held only at night or on weekends/holidays in Taiwan. However, those who already obtained a residence permit in Taiwan for reasons other than study may enroll in in-service master's programs. The overseas Chinese students or Hong Kong/Macao students who violate the aforementioned regulations will have their transferred/advanced student status revoked by the university and not be given any academic certificate. If such a circumstance is discovered in a student already graduating from the university, the student's diploma and academic degree will be revoked.
- II. The degree requirements for and student status of the students admitted to YZU must conform to the regulations issued by the Ministry of Education and the academic policies of YZU.
- III. The admission letters issued by YZU are no guarantee of visa issuance in Taiwan. Matters concerning visa and travel permission are governed by the Republic of China's Ministry of Foreign Affairs overseas embassies.
- IV. For information on counseling services for students during their studies in Taiwan, please go to the Military Education Office section of the university's website (<http://140.138.38.90:8080/yzme/>), or contact the office at (886)-3-4638800 #2244, or send an email to tomwu@saturn.yzu.edu.tw.

11. Registration Regulations

- I. YZU will announce the "Freshman Guide" in mid or late June, 2022. The admitted new students must come to the university to complete the registration and admission procedure on the scheduled day. Otherwise they will be disqualified for admission.
- II. Information on the credit fees, tuition, incidental fees, and accommodation fee required for new students enrolling in the university in September in the academic year of 2022 can be found on the website of the General Accounting Office of YZU.
- III. Information on the scholarships exclusive for overseas Chinese students can be found in the following links:

Chinese version: <https://gao.yzu.edu.tw/index.php/tw/scholarships/int-scholarships>

English version: <https://gao.yzu.edu.tw/index.php/en/scholarships-2/int-scholarships>

12. Academics

College of Engineering

Department	Overviews
<u>Dept. of Mechanical Engineering</u>	<p>The teaching goal of this course is to cultivate students' "innovative practice" and equip them with innovative thinking and the ability to solve problems manually. In response to modern technology trends and industry demands, the focus of research areas includes: intelligent machinery, green energy, elderly welfare technology, nanotechnology and biomedical mechanical and electronics, etc. It provides master's degree preparatory course, overseas dual degree, overseas exchange, vocational internship and other opportunities. This system requires self-operating devices for factory training and testing, and some of the operating tools are dangerous, so it is necessary to be able to move away from dangerous areas when necessary. URL: https://www.mech.yzu.edu.tw/.</p>
<u>Dept. of Chemical Engineering and Materials Science</u>	<p>1.Certified by the IEET engineering and technology education, a high degree of English-oriented courses are offered to meet international standards. 2.Multiple programs including green technology, functional materials, biotechnology, skill-oriented studies, and interdisciplinary programs are provided. The dual degree programs are also arranged so that you can obtain a bachelor's degree from our foreign partner affiliates at the same time. 3.Many scholarships are provided. Outstanding students can also have an internship in the Far East Corporation and many other relevant companies. 4.A comprehensive instrumentation center and many specialized laboratories are available. It is required to be able to operate instruments manually and distinguish colors if applying the department's experimental courses.</p>
<u>Dept. of Industrial Engineering and Management</u>	<p>1. The Industrial Engineering & Management of Yuan Ze University is accredited by the International Engineering Education (IEET), and many of our graduates enter the professions in the semiconductor industry, AI data science, R&D, smart manufacturing, logistics, information, finance, medical, education, marketing, etc. 2.Cultivating talents in systems integration between engineering technology and management science is our educational philosophy. 3.Providing industry-ready professionals through enhanced education in mathematics, science, and information, as well as interdisciplinary programs such as "Industry 4.0 - Smart Production", "Human Factors Engineering and Design", and "E-Supply Chain". 4.Providing opportunities in the Far Eastern Group's internship and talent cultivating programs, other corporate internships, and overseas school activities to enhance students' employment and international competitiveness. 5.IEM website: https://www.iem.yzu.edu.tw/english/index.html</p>
<u>International Bachelor Program in Engineering</u>	<p>The compulsory courses of our international program are taught in English. While improving students' professional knowledge, they also enhance their English, so as to cultivate talents with international competitiveness. Students learn and develop their academic interests in various engineering fields during their freshman year, and then choose either "Mechanical Engineering", "Chemical Engineering and Materials Science", or "Industrial Engineering and Management" as major study to focus on based on students' personal interests. The well-planned courses help students choose one of the above three areas to get a major degree or choose two areas to have a "dual major" degree for graduation credits. Students are trained to become professional engineering talents with cross-field and global circulation.</p>

College of Electrical and Communication Engineering

Department	Overviews
Dept. of Electrical Engineering	<p>Program A: Accredited by the Institute of Engineering Education Taiwan (IEET), the degree qualifications the Department offers are internationally compatible. Graduates can work in electrical, electronic, power, information, communication, and optoelectronics-related industries, and have a wide range of career paths. The Department has outstanding faculty members who have received numerous awards, including IEEE Fellow, IET Fellow, and Ministry of Science and Technology's Distinguished Research Award. Some of them are also the recipient of the Tai-You Wu Memorial Award and have been awarded by the Ministry of Science and Technology for major projects, such as the AI Center Project and the Einstein Project. In the rating of the quality of scientific and technical research papers in world universities in recent years, the Department has been repeatedly recognized for its quality of research papers in the fields of electrical engineering and information technology. In the Times Higher Education World University Rankings 2018, we were ranked among the top 200 universities in Asia and among the best young universities in the world. The Department is based on the university's educational mission, with a comprehensive curriculum of basic, theoretical, and experimental courses, complemented by related professional programs and research projects. It aims to train students to become important research and development personnel for the world's technology industries.</p> <p>Program B: The Department is accredited by the Institute of Engineering Education Taiwan (IEET), and the qualifications of graduates are internationally recognized so that they can be in line with international standards. The main development direction of the Department of Electrical Engineering (Group B) is (1) Internet of Things, (2) machine learning, (3) broadband wireless networks, (4) antenna and microwave circuit design, (5) microwave circuit and passive component design (including RF integrated circuit design, signal integrity research, millimeter wave passive component design, antenna design, and wave engineering), (6) communication systems (digital communication, communication signal processing, MIMO systems), (7) mobile communications (wireless communications, 5G mobile communications transmission and networks), (8) network information (including machine learning, video analysis, image processing, graphical recognition, big data analysis, software definition network, natural language and voice processing and software engineering). We have a strong and international faculty with extensive academic and practical experience and work closely with world-renowned universities. We have spent more than 100 million dollars to build excellent laboratory facilities provide a first-class learning environment, and have a close relationship with Far EasTone, one of the top three telecommunications operators in Taiwan. Graduates have done extremely well in further education and employment and are highly sought after by industry and academia. Contact telephone: 886-3-4638800 ext. 7302.</p> <p>Program C: Candidates must have proficiency in both Chinese and English. The teaching and research directions of this group are Semiconductor and Green Energy, Optical Electromechanical Systems, and Light Information. In addition to setting up a research team, and concentrating resources to build teaching and R&D equipment in these two major fields, the Department combines the needs of the industry to cultivate students with equal emphasis on theory and practice. Under the trend of global circulation, in addition to equipping graduates with large electrical machinery Specializing in the field, and especially strengthening the English ability of students, in order to cultivate international talents in the field of large electrical machinery.</p>
International Bachelor Program in Electrical and Communication Engineering	<p>The University is located in Taoyuan City and is in the vicinity of the "Silicon Valley of Asia" built to meet the great demand of local professionals in the field of electrical engineering. The International Bachelor Program in Electrical and Communication Engineering (IBP-ECE) was established in 2017. The IBP-ECE aims to build a bilingual learning environment for students to acquire knowledge covering the whole spectrum of Electrical Engineering, including Telecommunications Engineering, Power and Semiconductor Electronics, Photonics, and Information Sciences and Technology. Also, courses focusing on modern technology and practical applications are offered for students to grasp the industry trends. With interdisciplinary and practical learning, the students are not only able to stay competitive in the era of ever-changing technology but also able to identify their future career paths.</p>

College of Management

Department	Overviews
<u>Bachelor of Business Administration Program</u>	<p>Our four major fields in Digital Marketing and Human Resources, Finance, Business Administration, and International Business and Accounting support the development of business leaders with professional, cross-disciplinary skills, giving them a wide range of career choices and powerful competitive advantages when seeking careers in today's highly-competitive job market. We allow students to choose from a range of eight specialized concentrations, plus a number of secondary concentrations, or to take the eight industry/cross-college secondary concentrations.</p> <p>In order to broaden their global viewpoints and reduce barriers between learning and practice, we continuously educate our students about new concepts and make active connections with enterprises so as to provide opportunities for internships. Graduates of our programs will have bilingual communication competence and be ready for global mobility in their careers.</p>
<u>Bachelor of Business Administration (English Program)</u>	<p>The College of Management (CM) of Yuan Ze University is the first college to set up an English-taught Bachelor of Business Administration Program (EBBA) in Taiwan</p> <p>CM is also one of the training colleges under the EMI program of the Ministry of Education. We offer two major course packages: "International Finance" and "Global Business Management." Our program features are as follows:</p> <ol style="list-style-type: none"> 1. Aiming to cultivate global talents with international mobility. 2. Professional courses are taught entirely in English, and we cultivate students' independent thinking and problem-solving abilities through various teaching methods such as games, case discussions, practical exercises, etc. 3. Actively recruit international students and create an international learning environment. There are about 20% of foreign students in the class every year. 4. Our school has obtained the AACSB International Business Management Certification for more than ten years and has signed exchange and dual-degree programs with many well-known universities. Students with excellent academic performance can apply for scholarships or tuition waivers either from YZU or from partner universities. 5. Applicants with basic English listening, speaking, reading, and writing skills are preferred.

College of Informatics

Department	Overviews
<u>Dept. of Computer Science and Engineering</u>	<p>The teaching and research topics in the department include (1) Artificial Intelligence and Data Science (2) Networking, Internet of Things and Cloud Computing, (3) Multimedia Systems, Human-Computer Interaction, and Animation Technology, (4) Integrated Circuit Design Automation and Embedded Systems ◦</p>
<u>Dept. of Information Management</u>	<p>Our department is the first in Taiwan to integrate perception design, communication media, and information technology into a comprehensive curriculum. We nurture students' professional skills through required and elective courses, professional internships, and project-based learning.</p> <p>The goal of the Design Group in the Department of Information and Communication is to cultivate talents in multimedia, animation, and game creation and design. Our selection criteria focus on individuals with a foundation in art or those interested in digital painting, multimedia design, and creating virtual and real integration content. We welcome students passionate about creative painting and multimedia design to apply.</p> <p>Note: The Design Group of the Department of Information and Communication includes specialized courses in visual design, requiring a basic color recognition ability.</p>
<u>Dept. of Information Communication</u>	<p>Our department is the first in Taiwan to integrate perception design, communication media, and information technology into a comprehensive curriculum. We nurture students' professional skills through required and elective courses, professional internships, and project-based learning.</p> <p>The goal of the Department of Information and Communication is to cultivate talents in multimedia, animation, game creation and design, interactive technology, computer games, digital learning support systems, digital art, and virtual and real integration technology. Our selection criteria focus on individuals with a foundation in art or those interested in digital painting, multimedia design, and creating virtual and real integration content. We welcome students passionate about creative painting and multimedia design to apply.</p>
<u>International Bachelor Program in Informatics</u>	<p>Our bachelor's program stands out by offering information technology (IT) courses entirely in English, creating an immersive international learning environment that cultivates IT professionals with global competitiveness. In today's globalized world, IT specialists must possess strong English proficiency to catch up new technologies rapidly and play key roles in international teams. Our program provides a solid curriculum that develops students' expertise in IT while equipping them with the ability to apply their creativity in practice. This enables them to integrate IT knowledge with other fields such as mechanical engineering, electronics, arts, finance, and management—an approach we call "IT + X."</p> <p>Our curriculum focuses on building a strong foundation in core IT competencies. It includes fundamental IT courses along with a diverse selection of elective courses covering areas such as software engineering, artificial intelligence, IC design, and management information systems. Additionally, students are required to take intensive English listening and reading courses to enhance their language proficiency. The program also offers flexible course selection, allowing students to tailor their studies based on their interests, with opportunities to explore advanced courses in computer science, information management, and information communication.</p> <p>To enhance students' competitiveness in the semiconductor job market, we provide "TSMC Smart Manufacturing" interdisciplinary certification program. Besides, our internship courses also allow students to gain hands-on experience through internships with domestic and international partner companies, strengthening their employability.</p> <p>Additionally, to encourage students to participate in exchange programs abroad, we have established flexible credit transfer policies. This ensures that students can take courses at partner universities without delaying their graduation timeline.</p>

College of Humanities and Social Sciences

Department	Overviews
<u>Dept. of Foreign Languages and Applied Linguistics</u>	<p>I. The aim of the Department of Foreign Languages and Applied Linguistics is to train and cultivate students with professional English and Japanese language skills, along with cross-cultural understanding, communication competence, independent analytic and critical thinking skills, and spirits of teamwork and professionalism. Each course is specially designed with considerations of the current social pulse and industrial development to strengthen students' competitiveness, allowing them to be the elite in the workplace or professionals in language teaching or academic research.</p> <p>III. Our programs are designed to strengthen students' English and Japanese language skills, and also their language analytical and applicational skills, in the hope that students will have the core competitiveness in language teaching, translation, interpretation, and professional language skills. for various academic or industrial occupations.</p>
<u>Dept. of Chinese Linguistics and Literature</u>	<p>The Department was founded in 1998. Since 2009, it has been moving towards the path of developing "Asia Pacific humanity Education".</p> <p>Moving with the combination of two tracks: "Chinese literature and culture across Asia Pacific region" as the main axis and "Traditional Chinese humanistic literacy" as the content, the Department focuses on the application of Chinese literature in the current society with the implementation of the concept "integration of learning and application". The basic requirement for the eligible candidates: is TOCFL Level 3 or HSK Level 3.</p>
<u>Dept. of Social and Policy Sciences</u>	<p>The undergraduate program of the Department of Social and Policy Sciences is a multidisciplinary program that integrates sociology, social statistics, social work, public administration, cultural creativity, and more. Through professional internship training, students gain experience in real-world working environments, enhancing their abilities in planning and implementing activities while strengthening their lifelong learning and interpersonal skills. The program also cultivates students' analytical abilities through research methods courses. Additionally, the department promotes students' career development through extracurricular activities and workshops. Consequently, the department produces qualified individuals to meet society's needs and trains professionals such as social data analysts, government administrators, project managers, social welfare practitioners, and more.</p>
<u>Dept. of Art and Design</u>	<p>The Department of Art and Design emphasizes laying a good foundation of art appreciation as well as the ability to create. In addition to courses in basic art and art history, the department has arranged courses to guide students to develop creativity and learning in other related fields. The 21st century is an era of great knowledge economy. With such a development, our goal is to learn how to put creativity into real practice. The department encourages our students to think independently, communicate their thoughts clearly, and try to channel the challenges they face in learning into the energy of creative works. Such training will enable our students to develop the ability to research, develop, and create new things. In the future, they will have enough professional know-how and creativity to meet the needs of the job market.</p>
<u>International Bachelor Program in Strategic Communication, College of Humanities and Social Sciences</u>	<p>As communication technologies continue to evolve through constant innovation and the proliferation of devices and platforms provides more accessibility to connect with each other, the ability to effectively communicate has become as critical as ever in the areas of business, economics, politics, and international relations.</p> <p>The English program in the College of Humanities and Social Sciences at Yuan Ze University teaches the strategies and skills to create and deliver the right message to any target audience. Characterized as a "Public Relations and Strategic Communication" EMI (English as a medium of instruction) program, students will develop effective communication skills and techniques with a keen sense of language, specifically English.</p>

College of Medicine and Nursing

Department	Overviews
School of Nursing	<p>1. Yuan Ze University is collaborating with Far Eastern Memorial Hospital to establish a "School of Medicine and Nursing." Yuan Ze University leads the development of School of Medicine and Nursing, while Far Eastern Memorial Hospital serves as the main teaching hospital, offering clinical training and practical experience to students. The nursing department's mission focuses on training nursing professionals who meet the needs of both national healthcare systems and patient care, trusted by patients and their families.</p> <p>2. Our curriculum features a bilingual program combining programming and English, alongside international exchange opportunities. This equips students with both technical and linguistic skills, enhancing their ability to engage in smart nursing, develop leadership qualities, and provide human-centered, compassionate nursing care.</p> <p>3. The department emphasizes interdisciplinary learning, blending science, humanities, and innovation. Graduates will possess ten core competencies: biomedical foundations, clinical nursing skills, ethics, critical thinking, teamwork, compassion, responsibility, lifelong learning, creativity, and smart nursing, positioning them for success in the evolving smart healthcare landscape.</p> <p>4. Additionally, through partnerships with global sister schools and internships with healthcare groups, students gain valuable international exposure and enhanced career opportunities.</p>
Graduate Institute of Medicine	<p>In order to develop interdisciplinary medicine, we promote C.L.A.P to be applied to the rising medical applications.</p> <p>C: Cell Therapy and Regeneration: applying combined basic medicine, clinical medicine, immunology, and cell engineering to clinical cell therapy, tissue, and organ regeneration.</p> <p>L: Longevity, Cognitive, and Telemedicine: developing the software and hardware for elderly care and telemedicine in neuroscience, digital detection, data transmission, mechanical engineering, and nursing.</p> <p>A: Artificial Intelligence and Engineering: applying artificial intelligence and machine learning to medical data identification and analysis for achieving the effect of predicting risks and supporting clinical diagnosis.</p> <p>P: Precision Medicine: enhancing medical accuracy with medical engineering and optimizing diagnosis through molecular biology, clinical pathology, and big data.</p>
Graduate School of Biotechnology and Bioengineering	<p>The educational objective of the Graduate School of Biotechnology and Bioengineering is to cultivate outstanding all-around professionals to work in the field of biotechnology and bioengineering. The curriculum emphasizes theories as well as practices. Our graduates will be equipped with the ability and quality to pursue careers in the global biotechnology market. Our faculties have been actively contributing to their teaching and research. Our professors have published research papers in world-renowned journals and obtained research funding. Our courses are designed to address a variety of bioengineering topics with multidisciplinary solutions developed in biotechnology and bioengineering. Moreover, the English courses we offer expand students' worldviews and improve their foreign language ability.</p>

【APPENDIX 1】 Overseas Chinese Student Registration Qualification Affidavit

本人_____ (中文姓名)已閱讀並清楚招生簡章各項規定，本人身分資格及學歷資格均符合相關規定，茲提供相關身分證明及學歷證件作為審查，且本人所上傳報名及審查資料，內容皆屬實，經審查後如有以下情形，則由貴校撤銷錄取資格。

I _____ (full name) hereby certify that I have read and understood the regulations specified in the admission brochure, and will provide certificates of identity and education for review to prove that I meet the identity and educational requirements. I also confirm the authenticity of the information and documents I submit, and agree to be disqualified for admission by the university if any of the following circumstances occurs:

一、僑生申請時未符合「僑生回國就學及輔導辦法」第二條有關「最近連續居留海外六年以上」及第三條所定連續居留海外期間之規定。

二、港澳生申請時未符合「香港澳門居民來臺就學辦法」第二條有關「最近連續居留境外六年以上」及第三條所定連續居留境外期間之規定。

三、港澳具外國國籍之華裔學生申請時尚未符合「僑生回國就學及輔導辦法」第二十三條之一有關「最近連續居留香港、澳門或海外六年以上」及第三條所定連續居留海外期間之規定。

1. The overseas Chinese student does not meet the requirement regarding “recent continuous residence overseas for over 6 years” specified in Article 2 and the requirement regarding recent continuous residence overseas specified in Article 3 of the “Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan” during application.
2. The Hong Kong/Macao student does not meet the requirement regarding “recent continuous residence overseas for over 6 years” specified in Article 2 and the requirement regarding recent continuous residence overseas in Article 3 of the “Regulations for Hong Kong and Macao Residents Studying in Taiwan” during application.
3. The Chinese student with foreign nationality in Hong Kong/Macao does not meet the requirement regarding “recent continuous residence in Hong Kong, Macao, or overseas for over 6 years” specified in Article 23-1 and the requirement regarding recent continuous residence overseas in Article 3 of the “Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan” during application

另，港澳生同意於錄取報到後之身分資格符合「香港澳門關係條例」第四條有關「未持有英國國民（海外）護照或香港護照以外之旅行證照者，或未持有澳門護照以外之旅行證照或雖持葡萄牙護照但係於葡萄牙結束治理前於澳門取得者」之規定。港澳具外國國籍之華裔學生則符合「僑生回國就學及輔導辦法」第二十三條之一有關「未曾在臺設有戶籍」之規定。

Furthermore, the Hong Kong/Macao students must agree to certify their identity as “persons who do not hold a travel document other than a British (Overseas) passport or a Hong Kong passport, or those who hold no travel documents other than the Macau passport, or those who do hold a Portuguese passport but obtained the document in Macau prior to the end of Portuguese rule”, as specified in Article 4 of the “Laws and Regulations Regarding Hong Kong & Macao Affairs”, after being admitted to the university. The Chinese students with foreign nationality in Hong Kong/Macao must meet the requirement of “never having had household registration in Taiwan”, as specified in Article 23-1 of the “Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan”.

除上述身分資格外，本人所提學歷審查資料亦皆符合簡章學歷資格，驗證時亦必提具與報考學歷相符並經相關單位核驗之文件備查。

In addition to the above identity qualification, I also certify that the submitted documents regarding my education meet the requirements specified in the admission brochure and agree to submit documents that are verified by authorities and testify to my educational eligibility for review.

【APPENDIX 2】 Hong Kong or Macau Resident Eligibility Confirmation Form (For Application in the 114 Academic Year)

The Hong Kong and Macau Resident Eligibility Confirmation Form has been approved by the International and Cross-Strait Education Division of the Ministry of Education. (Revised on September 14, 110)

I, _____ (name) a Hong Kong or Macau resident, hereby confirm that I am applying to study in Taiwan for the academic year 114. I confirm that I meet the following criteria at the time of application:

Check the appropriate boxes for each item below:

(Please check one by one based on the following questions)

1. I possess a permanent residency certificate for Hong Kong or Macau:
 - i. Yes; I possess a (please fill in Hong Kong or Macau) permanent resident ID.

2. Calculated backward from the application deadline stated in the brochure, I meet the following criteria for the most recent continuous overseas residency duration (Note 1: "Overseas" refers to countries or regions outside of Taiwan. "Continuous residency" refers to staying in Taiwan for no more than 120 days each calendar year, from January 1 to December 31):
 - i. Recently continuously resided overseas for more than 8 years.
 - ii. Recently continuously resided overseas for more than 6 years but less than 8 years.
 - iii. Recently continuously resided overseas for less than 6 years.
 - iv. Calculated until August 31, 2025, I meet the requirement of continuous overseas residency for more than 6 years (students applying for Medical, Dental, and Traditional Chinese Medicine programs must meet the requirement of more than 8 years).

3. Following the above, have you stayed in Taiwan for more than 120 days during the most recent continuous overseas residency period?
 - i. Yes; I have attached supporting documents.
 - ii. No.

4. Please confirm your application status as either "Hong Kong/Macau Student" or "Hong Kong/Macau Ethnic Chinese Student Holding Foreign Nationality" (choose only one):

Hong Kong/Macau Student (choose 1 out of 4)	Hong Kong/Macau Ethnic Chinese Student Holding Foreign Nationality (choose 1 out of 3)
<p>1. <input type="checkbox"/> I possess a British National (Overseas) Passport.</p>	<p>1. <input type="checkbox"/> I possess a British passport and have permanent residency in Hong Kong. I have never established household registration in Taiwan, and I have continuously resided in Hong Kong, Macau, or overseas for more than 6 years.</p>
<p>2. <input type="checkbox"/> No; I do not possess a Portuguese passport, British National (Overseas) passport, or travel documents other than Hong Kong or Macau passports.</p>	<p>2. <input type="checkbox"/> I possess a Portuguese passport, and the</p>
<p>3. <input type="checkbox"/> Yes; I possess a Portuguese passport, and the initial issuance date of the Portuguese passport is on or before December 19, 1999 (Applicants are required to submit a "Certificate of Personal Data" issued by the Macau Identification Services Bureau after being admitted in order to apply for a student visa to Taiwan).</p>	<p>initial issuance date of the Portuguese passport is on or after December 20, 1999. I also have permanent residency in Macau. I have never established household registration in Taiwan, and I have continuously resided in Hong Kong, Macau, or overseas for more than 6 years.</p>
<p>4. <input type="checkbox"/> Yes; I possess a _____(please fill in country) passport or travel document and agree to relinquish the foreign passport or travel document after enrollment distribution.</p>	<p>3. <input type="checkbox"/> I possess a _____(please fill in country) passport or travel document and have permanent residency in Hong Kong or Macau. I have never established household registration in Taiwan, and I have continuously resided in Hong Kong, Macau, or overseas for more than 6 years (applicants for Medical, Dental, and Traditional Chinese Medicine programs must have resided for more than 8 years). The term "overseas" refers to countries or regions outside Mainland China, Hong Kong, and Macau.</p>

I confirm that the above information provided in my application is accurate. I understand that I bear full responsibility for any inaccuracies or misrepresentations in my application, and I have no objections to this.

【APPENDIX 3】 Personal Data Collection Agreement

According to the Personal Data Protection Act, Yuan Ze University (hereinafter as YZU) issues its statement of personal data protection and collection agreement to notify you of your responsibilities and rights and solicit your consent to the collection, processing, and use of your personal data by YZU. By clicking “Agree”, you have read, understood, and accepted the content listed in this Agreement.

I. Basic Data Collection, Renewal, and Management

(I) YZU will collect, process, and use your personal data in accordance with the Personal Data Protection Act and relevant laws and rules enacted in Taiwan, the Republic of China.

(II) Please provide your accurate, latest, and complete personal data.

(III) Your personal data collected by YZU to facilitate its administration includes the information in the columns marked as required on the form.

(IV) Please inform YZU of any change to your personal data to maintain the latest information.

(V) You may lose certain rights or benefits if you provide incorrect, untrue, outdated or incomplete information.

(VI) According to the Personal Data Protection Act (ROC), you are entitled to make the following requests:

1. To check or review the collected data.
2. To receive a photocopy of the collected data.
3. To supplement or revise the collected data.
4. To cease the collection, processing, or use of the collected data.
5. To delete the collected data.

Please contact YZU(e-mail: iadept@saturn.yzu.edu.tw), if you want to make the abovementioned request. However, YZU may reject your requests in order to meet the administrative needs of its offices and institutes. Moreover, should you suffer any losses due to such requests, YZU shall not be held responsible for any compensation.

II. Purpose of Personal Data Collection

(I) YZU collects your personal data to meet the needs of educational administration.

(II) We will solicit your consent in a written form in advance before using your personal data to serve a purpose other than the one specified in Item (I) of this article. While you may refuse to provide your personal data to YZU, you may lose certain rights or benefits as a consequence.

(III) YZU may use your personal data in Taiwan for a period of 10 years commencing from now on the date of submitting your application.

III. Basic Information Security Should your personal information be stolen, disclosed, altered, or infringed upon due to the violation of the Personal Data Protection Act by YZU during the occurrence of any natural disasters, incidental changes, or other unavoidable circumstances, YZU shall inspect the cause and inform you by phone, mail, and email or website notice.

IV. Validity of Agreement

(I) YZU is entitled to amend the contents of this agreement, and any amendments will be publicized on the YZU website. Should you disagree with any amendments, please exercise your right to request that YZU discontinue collecting, process, or using your personal data according to Item VI of Article I. Otherwise, you are considered to have agreed to the amendment.

By reading the above terms and conditions, you agree to abide by the terms herein.
